GREAT GAME OF BALL.

The Elks and the Eagles Play this Afternoon—Will be a Hot Game.

Two years ago the B. P. O. Elks and Fraternal Order of Eagle baseball teams of Reynoldsville played three games and the Eagles won all the games. The two teams have arranged for another series of games, the first of which will be played this afternoon. This promises to be a hotly contested and very interesting game. The Elks are determined to win this time and the Eagles are just as determined to defeat them. It is to be hoped there will be no bloodshed, but perspiration is sure to flow freely.

Will Test Fire Alarm.

The Silk Mill.

From information we received a couple of weeks ago we expected before this time to be able to announce positively that the silk mill would resume operation and give date of resumption, but there is nothing authentic yet about the starting of the mill. It will certainly be in operation in the near future.

Mrs. McDonald was buried in the Beechwoods cemetery Saturday forenoon. Her maiden name was Hannah Harriger. She was born May 19, 1880, and was 27 years old last month.

His Life Endangered.

Several dastardly attempts have been made upon the life of Engineer Blaydon, of the light plant, the past week. On two different occasions, about three o'clock in the morning, large rocks have been hurled through the windows, each time coming within an ace of landing on Blaydon's head. The last attack resulted in the missile striking near the dynamo. Had it landed the plant would have been put out of commission.—Treverton Paper. J. A. Blaydon, whose family reside at Reynoldsville, is the engineer referred to in above item. Mr. Blaydon has been at Treverton four months and during that time he helped round up a couple of lawless characters, hence the attack. He will return to Reynoldsville soon.

Monte Myro Troupe in their celebrated act, "The Eagle Inn." Ridiculous and inconceivable positions these acrobats will be seen in as they fly through the air, into windows, etc., and turn their inn inside out and themselves upside down.

These attractions alone are worth coming to Reynoldsville to see.

KILLED ON RAILROAD.

Robert McClain Run Down by Passenger Train on Brookville Bridge.

Robert McClain, of Brookville, aged about 65 years, was caught on the high bridge on the P. R. The engineer did not see the man in time to stop the train and Mr. McClain being deaf did not hear or see the train until too late to escape.

Old Man Shot Himself.

John Ostrander, who resided with his nephew, J. E. Stephens, near Richardsville, was found dead in his room shortly after noon Monday with a bullet hole through his head. Mr. Ostrander had only been in his room a few minutes alone when the shot was heard and he died without regaining consciousness, and it is not known whether his death was the result of an accident or whether it was intentional. There are reasons to believe it was premeditated suicide. Mr. Ostrander was 80 years old. Coronor Sayers, of Reynoldsville, held an inquest.

TO EQUIP STAR GLASS CO. PLANT WITH MACHINES.

Big Citizens' Meeting Held Last Night Under Auspices of Business Men's Association.

THE CAPITAL TO BE INCREASED

Soliciting Committees will Organize To-Night and Plan Campaign for Raising Money.—With Modern Machine Installed Plant Would Give Employment to Fifty Men and be Operated at Least Eleven Months in the Year.

A movement to partially reorganize the Star Glass Company, increase its capital stock and equip the plant with modern machines for manufacturing its product was inaugurated yesterday and is being carried through in typical Reynoldsville whirlwind fashion.

At a meeting of the directors of the Star Glass Company Tuesday afternoon the condition of the concern was fully canvassed and it was decided that only a radical change in the plant could place it on a paying basis. The entrance of the machine has cheapened the cost of production so greatly that the factories operated under old methods are unable to successfully compete in the open market. To re-equip the local plant will require a large outlay of cash but it is virtually a case of spending one dollar additional to save three already invested. It is the only practical solution of the problem and once determined upon was taken up with energy by the directors.

At five o'clock the officers of the Business Men's Association were appealed to. They issued a hurry call to the members of the Association and citizens and by 8.30 had a large and representative audience of Reynoldsville business men assembled in Odd Fellows' hall.

President D. H. Breakey called the meeting to order and stated its object, explaining that the Association had merely taken the lead, that there had been no time for investigation by the authorized Association committees and consequently whatever action was taken would be the expression of opinion by the citizens in general.

Dr. J. W. Foust introduced a gentleman from Pittsburg who explained the proposition in detail, showing wherein the plant was deficient and how to make it pay. He was followed by others and those present gained a perfect understanding of the project.

The Star Glass Company was originally capitalized at \$100,000, of which \$32,500 remains in the treasury. It is proposed to issue this stock at its par value of \$50 per share, payable in three sums of one-third each at intervals of thirty days. As an indication of the confidence which the present stockholders have in the plant it may be stated that over \$11,000 was voluntarily subscribed by directors yesterday afternoon and evening and others have expressed their willingness to aid in equipping the plant to compete with the best and largest factories in the United States.

It was moved that the chairman appoint four committees of three members each to undertake the work of raising the necessary funds. It carried.

The chairman named the following gentlemen on the soliciting committees: First: M. M. Fisher, Dr. A. H. Bowser, J. H. Corbett.

Second: W. H. Bell, C. R. Hall, M. E. Weed.

Third: E. C. Burns, W. W. Wiley, J. Owen Edleblute.

Fourth: Mayor S. M. McCreight, C. W. Flynn, Esq., Dr. J. H. Murray.

The soliciting committee appointed at the meeting of the company's directors Tuesday afternoon, which will cooperate with the committees appointed at the citizen's meeting, is composed of the following: Dr. J. W. Foust, H. C. Deible, Richard Smith, Dr. J. C. King, August Baldauf, Daniel Nolan, H. A. Stoke, A. T. McClure, C. M. Dinger, T. C. McEateer, H. L. Dixon.

These committees will meet in the Star Glass Company office to-night, organize for work, district the town and arrange for a thorough canvass of the community during the balance of the week.
